PS stands for wood plastic composite,it is an excellent alternative to traditional wood wall panels.PS wall panels not only have the advantages of wood wall panels, but also have many different advantages,which is an attractive and cost-effective way to decorate.

PSwall panels can be used for interior walls,room ceilings,offices,basements,especially for bed rooms, living rooms,and kitchens,etc.They are the best choice for wet walls as many people around the world are using these panels to get rid of wet walls.

These panels require very little maintenance.You can easily clean these panels with a damp cloth.But,do not use chlorine or abrasives for cleaning.

PSwall panels can be installed over tile,plywood,and dry wall.
